MANY LANDMARKS ARE COMING BACK

House of Delegates Will Be Overwhelmingly Democratic

SOME REPUBLICAN GAINS

Full List of Members Will Not Be Known Until After General Election.

Although more than 80 per cent, of the Democratic nominations for the next House of Delegates have been made, the personnel of the body is yet in doubt, for the reason that some of the counties have not acted, and that or of those put in the field by inant party may be reasonably upon to lose to their Repubd upon to lose to their Repub-or independent competitors in meral election on November 2. It also prediction, however, that the will again be overwhelmingly-eratic, though the Republicans e able to gain a few scattering ers to augment the small minor-the lower branch of the present ature. On the other hand, the trats may make some slight though such a result is not gen-expected by wise leaders on its usual number. House districts, where the Dem-

thing may be said in these columns later.

How They Are Divided.

Members of the present House who have been renominated are: John R. Rew. Accomac: Dr. T. M. Dunn and D. H. Plitts, Albemarle; N. E. Spessard, Craig; Dr. H. S. Myers, Amherst; Thos. J. Stration, Appomattox; J. A. Sydnor, Nottoway; Thos. S. West, Bedford; G. W. Breckenridge, Botetourt; D. B. Pow. crs. Jr., Caroline; W. W. Baker, Chesterfield; Alden Bell, Culpeper; Thos. E. Clarke, Dinwiddle; Harry R. Houston, Elizabeth City; W. T. Oliver, Fairfax; Jnc. Orr Daniel, Loudoun; Richard Evelyn Byrd, Winchester; J. N. FOR SKIN IRRITATION We Guarantee Relief. Your Money Back If Not Satisfied. We have an observation of Mecklenburg—2.

We have an olutment possessing extraordinary power to permanently relieve all forms of eczema, skin erruptions, pimples, blotches, ring worm acne, tetter, scaly scalp, hives, all forms of itching and fritation caused by insect bites. Its power to sooth ulcers, sortes and wounds is very pronounced.

We are so positive that Rexail Eczema Ointment is unexcelled for Eczema Ointiment is unexcelled for overcoming these aliments that we sell it with our personal promise that it will not cost the user anything unless it in every way gives satisfaction. We exact no promises and in no way obligate the purchaser. You must admit that we could not afford to make such a broad liberal guarantee, except we are certain we could substantiate our claim. Hexail Eczema Ointment is a grayish-white, pleasant smelling, antiseptic, cooling, healing salve that is strongly germicidal. It destroys the gerfits that penetrate the skin and cause eczema and other tormenting skin aliments. A remedy must do that to be effective, for in no other way can such diseases be overcome. such diseases be overcome.

Rexall Eczema Ointment is ideal for

the treatment of skin frritations pecu-liar eo children, for barber's itch, and for sore itching feet.

for sore itching feet.

It is positively the best remedy we know of, and we urge you to try it at our risk. Price per box 50 cents. Polk Miller Drug Co., the Rexall Store, \$34 East Main.

OF THAT TIRED FEELING TROOPS CLOSELY coming session to pushing some oyster legislation, which he has long since favored. TELLS HOW TO GET RID Some New Faces.

Some of the new men who will attract attention in the next House in the event they do not fall by the wayside at the general election, are Col. J. E. West, of Nansemond; Judge John P. Lee, of Franklin, and J. M. Prics, of Fauquier. Judge Lee is a native of Powhatan county, being a relative of General Robert E. Lee. He went to Franklin when quite a voung man, and

So-Called "Lazy Disease," Due to Hook-Worm Parasite, Engages Attention of Government Expert.

General Robert E, Lee. He went to Franklin when quite a young man, and was shortly thereafter made judge of the County Court, holding that position until the Constitutional Convention changed the judicial system in the State. Judge Lee is a lawyer of ability, having for a long time been associated in the practice of his profession with Congressman Edward W. Saunders, of Rocky Mount, Mr. Price will be pointed out to visitors in the gallery as the only man in Fauquier county who has ever been able to defeat Major Moses M. Green for any of-

for renomination. He is a strong busi-ness man, as well as a past master in the great game of politics. There will be many other new men in the next House who will attract attention at the coming session, of whom some-thing may be said in these columns later.

best process for their preservation "for all time." The officials of the Smith-sonian Institute are now discussing the question of having this work done either by some tanner outside the city or under their own immediate super-vision in the museum quarters here. The greatest possible care will be ex-

ercised in having this work done in a manner so that no injury will lessen the value of the skins for scientific

WASHINGTON, D. C., August 22.—
First get rid of the parasito causing the hook-worm disease; then attention should be directed to treating the patient afflicted with the malady.
This is the advice given to physicians and others for the treatment of the so-called "lazy" disease by Dr. Charles Wardell Stiles, chief of the so-called "lazy" disease by Dr. Charles Wardell Stiles, chief of the so-called "lazy" disease by Dr. Charles Wardell Stiles, chief of the bulletin of that service. He shows the mistake of first treating the patient and afterward the parasite.

For several years Dr. Stiles has devoted practically all his attention to investigating the hook-worm disease, particularly as affecting the Southern States, where it was found to be quite prevalent. He ascertained that the disease produced a profound anaemia in those so affected, causing inability to perform any kind of work and reading.

The publication of his conclusions as some time ago attracted widespread attention.

Showing that, although hook-worm disease, may occur in persons in any walk of life, Dr. Stiles declares that it is particularly provalent among the have been killed in the jungles of have been killed in the jungles of Louis Disbrow, whose transfer from the particularly provalent among the have been killed in the jungles of Louis Disbrow, whose transfer from the particularly provalent among the have been killed in the jungles of Louis Disbrow, whose transfer from the particularly provalent among the law of a copious drink of milk on the day they not poisoning following the taking of a copious drink of milk on the day they not poisoning following the taking of a copious drink of milk on the day they not poisoning following the taking of a copious drink of milk on the day they not poisoning following the taking of a copious drink of milk on the day they not poisoning following the taking of a copious drink of milk of a copious drink of

these feature events must be strictly stock models, and not specially constructed race machines gives a significance to both races that will be appreciated by the industry and the public alike. Most of the entrants, to prove the stock quality of their competing cars, have signified their willingness to sell the same at catalogue prices immediately after the meet.

meet.

Though entries for the program events do not close until noon on Tuesday, ten of the fastest cars in this country have been regularly nominated for the twenty-four-hour competition, to be started at 10 o'clock on Friday night. Several more entries are probable, but even the field as at present is the largest obtained for any contest this year. In the list are most of the machines that acquitted themselves favorably at the opening meet last month, while there are several notable additions to the ranks.

The Flat, Stearns, Acme, Lozier and

the value of the skins for scientific purposes.

Many Want Them.

It will require a considerable period of time to mount the specimens suitably for exhibition, and every precaution will be taken to select the very best to be retained by the museum.

It has not generally been understood that an important value is attached to duplicate specimens for exchange purposes. The law permits the Smithsonian to make exchanges for species it may not possess. It is known that every museum in the world will be anxious to obtain at least one of the Roosevelt trophies, which will be unique, because of having been gathered by a former President of the United States. By means of these exchanges, the National Museum will be able to come into possession of many new specimens.

United States. By means of these exchanges, the National Museum will be able to come into possession of many new specimens.

The collection did not arrive at the museum to-day, but is expected there almost any time.

Will Be Unique Exhibit.

The largest and most ornate exposition building in the United States has been completed just in time to receive the trophics of the hunt.

This building, of granite, with floor space of approximately nine and one-half acres, and costing three and a half millions of dollars, has been creeted by Congress for the National Museum, and is to-day being put in order for the proper exhibition of various objects of interest that have been collected by the government, Chief among these are the Roosevelt trophies.

Though no definite arrangement, lias been made, it is likely that rooms on the first floor of this structure will be the big fifty-horsepower Houpt car, which will be in the hands of George which will be in the hands of George the twenty-four-hour race the last twenty-fo

FROM FRAIL BOAT, SHOOTS HIPPO WHEN HE CHARGES

Roosevelt's Fine Marksmanship Arouses Admiration of Members of Expedition---Correspon-

ation of Members of Expedition---Correspondent Chased Back to Camp by Three Lions.

NAIVASHA, Sunday, July 18.—Theodore Roosevelt and his party had not been expected to reach Sagai-Sai before the 20th instant, but having had success greater than they anticipated in the Sotik and Guaso Nyiro country, they decided to come to the lake and try for hippopotami with Captain Attenborough, R. N., retired, owner of the Sagai-Sai farm.

The last few days on the way to Sagai-Sai, the party had to make long marches over a practically waterless country, and once when they reached a water hole they had been making for, found it was absolutely dry. Therefore, the party had to go into camp without water. It was found here also that the food supplies had almost given out and Europeans and natives alike had to go on haif rations.

The party reached the farm on the morning of July 12, but found that Commander Attenborough had gone over to Naivasha for supplies. Mr. Roosevelt, however, was not disturbed by this, and the scientists were soon
